2016 DuPont
Order DRAFT M...

All – attached is the 2006 Order and the draft 2016 order with suggested revisions that Andy, Lynne, and I discussed this afternoon. The language needs further editing, but the concepts of what we'd like to see included in the order are captured roughly for purposes of our meeting tomorrow. Note that some of the critical language we need in the order cannot be finalized until after we have the actual health advisory and related health effects documents. It's possible that the peer-reviewed health effects documents can be a starting point, but I'd like to get confirmation on that from OW during tomorrow's call. Thanks-Jacquie
